DILLEN® INTRODUCES NEW TUSCAN AND CASCADE HANGING BASKETS IN EYE-CATCHING DESIGNS

FOR IMMEDIATE RELEASE: November 2005—Dillen Products, North America's leader in horticultural containers, announces the addition of two new styles in their hanging basket line—the Tuscan and Cascade Saucerless Hanging Baskets.

With its unique classical design, the Tuscan Saucerless Hanging Basket is Dillen's most economical saucerless hanging basket. The fluted composition adds a dash of refinery to any plant arrangement. In comparison, the vortex shape of the Cascade Saucerless Hanging Basket adds a fresh, new upswept design to the already extensive choice of swirled styles provided by Dillen. Additionally, the Cascade is the most economical of Dillen's swirled baskets.

Both new baskets feature an internal capillary dish, which creates a reservoir for excess water in the bottom. Dillen's Tuscan and Cascade Hanging Baskets allow multiple hanger options in both plastic and metal. While standard colors are green and white, an extensive choice of custom colors is available upon request with minimum quantity orders. Both the Tuscan and the Cascade provide more efficient storage, fitting 100 baskets per carton and 4,800 per pallet.

Dillen, a Myers Industries, Inc. company (NYSE: MYE), is a leading manufacturer of molded plastic growing containers, trays, and related products for the North American horticulture market. Dillen also provides complete offset / inkjet printing and labeling services, plus in-house graphics design for branding programs. Custom product design is available. Products are manufactured in Ohio and Nevada, and are available across North America through Dillen's extensive distributor network. Call (800) 225-7712, or visit www.dillen.com for more information.
