### **DILLEN® DELIVERS CLASSIC STYLE & ELEGANCE WITH NEW ROMAN URNS**

FOR IMMEDIATE RELEASE: November 2005—Dillén Products, North America's leader in horticultural containers, adds another dimension of alluring beauty with its new line of Roman Urns. This planter is shaped in the classic Romanesque fluted design, adding a dash of elegance and charm to any planting arrangement or garden setting.

Dillén's Roman Urns are injection molded using the latest thinwall technology to provide the greatest economy. The broad base design not only provides greater soil capacity for healthy plant growth, but also allows for enhanced shipping stability. Roman Urns are available in both the 12.50 and 9.00 sizes with standard colors of clay and mocha; a wide range of designer colors is available with a minimum quantity order or on a custom basis. To meet the production needs of growers and their retail demands, the 12.50 Urn is packed at 20 per carton / 1,425 per pallet; the 9.00 Urn is packed at 44 per carton / 4,200 per pallet.

Dillén, a Myers Industries, Inc. company (NYSE: MYE), is a leading manufacturer of molded plastic growing containers, trays, and related products for the North American horticulture market. Dillén also provides complete offset / inkjet printing and labeling services, plus in-house graphics design for branding programs. Custom product design is available. Products are manufactured in Ohio and Nevada, and are available across North America through Dillén's extensive distributor network. Call (800) 225-7712, or visit [www.dillen.com](http://www.dillen.com) for more information.
